CABLE MANAGEMENT SYSTEMS

Falcon Trunking Systems Limited

Welcome to the latest Falcon Trunking Cable Management catalogue incorporating the latest additions to our expanding product range.

We have tried to make this catalogue as user-friendly as possible; however our intention is that whilst providing an overview of our cable management range, it remains very much supplemented by our website www.falcontrunking.co.uk, keeping you fully updated with the latest product developments, together with further information you may find useful, such as **Cable Capacity Guides, Installation Instructions & Company Statements** on developing and evolving subjects such as REACH (Registration, Evaluation, Authorisation and Restriction of Chemicals) regulations.

Contact us on (01706) 372929 to discuss your requirements, and our dedicated sales team will ensure that you are dealt with swiftly and will endeavour to answer any questions you may have. Trade customers with accounts can place their orders via email at sales@falcontrunking.co.uk or by faxing it through to us on (01706) 371550.

Additional copies of this catalogue can be downloaded in PDF version from our website; alternatively we can email you an electronic copy or post you additional copies of this one.

HISTORY

Falcon Trunking Systems Limited was incorporated in September 1991, manufacturing its first products in March 1992. The company relocated a short distance from its original site in Rochdale to its current location at Butterworth Street, Littleborough, during 1994. Acquiring the last remaining unit on the estate in 2004, the company now operates from a two-acre site which facilitates all our operations.

EMPLOYEE-OWNED

On the 29th of February 2024 Falcon Trunking transitioned from the original

Proudly to an Employee

owned. Trust business.
Employee

ownership is where ALL employees have a significant and meaningful stake in the business. All Falcon employees have a financial stake in the business, as they are

shareholders via the trust and are actively engaged in how the company is run. Falcon is ultimately owned by the people who work there.

We remain as proud today as the day we started in being able to say 'Made in Britain'.

POLICY

We aim to offer a 'one-stop shop' facility for your cable management requirements, and the cornerstone of Falcon policy remains our complete commitment to customer satisfaction. As this is a critical element to 'what we are about', your comments and suggestions as to how we can improve even further would be welcomed.

QUALITY MANAGEMENT SYSTEMS

Falcon Trunking Systems has been independently assessed by the European Certification Group to the requirements of the internationally recognised BS EN ISO 9001:2015 - the international standard for Quality Management Systems (QMS).

ENVIRONMENTAL

At all times we remain acutely aware of the impact our operations have on the environment, and consideration is given, where possible, to the incorporation of recycled materials within our products.

This does not mean, however, we compromise on quality. Significant and ongoing investment has been made in our recycling division, including both optical and electrostatic separation technology.

Any recycled material incorporated within our products is only derived from our own operations & under our quality management systems. Furthermore, the only feedstock we procure is post-industrial 'off-cuts' from the window fenestration industry. By exclusively only using the same mainframe profile for our feedstock as that being used & incorporated within new window products, a very high specification is achieved through the recycling process.

Those of our products that do not incorporate any recycled material remain in themselves recyclable. Please visit our dedicated website at

<https://www.falcontrunking.co.uk/recycling/> to learn more about our PVC-u recycling operations and our commitment to lowering our impact on the environment.

For ease of reference, we have used the logo below throughout this catalogue to indicate those product ranges that incorporate recycled material. In all instances where you see this logo, an alternative

range exists that is made exclusively from prime (virgin) material to address any specific contractual or regulatory requirements. This range is not listed within this catalogue; please contact us or visit our website for further details.

Where this logo is not present, the use of Prime UPVC (Virgin) material is confirmed. These product ranges do not contain any non-closed loop recycled material; however they can in themselves be recycled at the end of life.

REAL LIVING WAGE

Every employee at Falcon Trunking is paid in accordance with the principles of the Living Wage Foundation. This is an

independent organisation that recommends a rate of pay it calls the 'Real Living Wage'.

Unlike the government's minimum wage, which is a legal requirement and enforceable by law, the Real Living Wage is an amount above the minimum wage voluntarily paid by businesses who believe their staff deserve a wage which meets everyday needs. You can find out more about the Living Wage Foundation and our accreditation on their website: <https://www.livingwage.org.uk/>

BRITISH PLASTICS FEDERATION

Falcon Trunking is a proud member of the British Plastics Federation (BPF) – the UK trade association representing the plastics industry.

The BPF is a leading organisation in the UK, offering a variety of services and

resources to support businesses in this industry sector. More can be found on the British Plastics Federation (BPF) on their website at <https://www.bpf.co.uk/>

Territory: This catalogue contains information for and references to products intended to be supplied and installed within Great Britain (England, Scotland and Wales). For products destined to be supplied to or ultimately installed in Northern Ireland or the European Union, please use our 'Northern Ireland & European Union' catalogue or contact the sales department for further information.

Options:

7 dimension options in standard format and 8 in self-adhesive format – catering for most installation requirements.

Self-Adhesive Option - Whilst the bond created by the tape can be very strong, maximum adhesion only occurs after 24 hours. Ensure the mounting surface is dust-free, dry, clean & flat. Uneven surface contact will reduce bonding performance, as will installation in cold conditions below 5°C.

As all of the above conditions cannot be controlled by ourselves, we recommend additional supplementary fixings are provided in addition to the self-adhesive tape.

Use with fire performance clips (FRE) to retain cables in position and prevent their premature collapse in the event of a fire.

Information:

For surface mounting and containment of low voltage cabling. Suitable for installation on both walls and ceilings.

The clipping action of the lid to the base is designed to resist accidental removal of the lid at mid-section. Removal of the lid is achieved by accessing a terminated end.

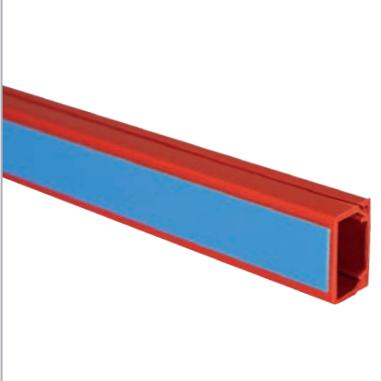

When terminating the profile, use moulded stop ends (FSE) secured into position with adhesive (ADH).

Seamless installation – one-piece moulded accessories mask all lid terminations.

6.5 Until such time as title to the Products passes to the Buyer, (and provided the Products are still in separate identifiable existence and have not been resold) Falcon shall be entitled at any time to require the Buyer to deliver up the Products to Falcon and if the Buyer fails to do so forthwith, to enter upon any premises of the Buyer where the Products are stored and repossess the Products (all to the fullest extent permitted by law, and where the Products are stored at the premises of a third party the Buyer shall procure a right for Falcon to enter such third party's premises to repossess the Products).

7.1 The provisions of this Condition 7 shall only apply if Falcon is providing Services to the Buyer.

7.2 In providing Services Falcon shall:

7.2.1 provide Services with reasonable care and skill;

7.2.2 use reasonable endeavours to meet any performance dates agreed between the parties, but any such dates shall be estimates only and time shall not be of the essence for performance of the Services;
